Learn more. Have your say.

Elexicon Energy Inc. has applied to the Ontario Energy Board to raise electricity distribution rates in its Veridian Rate Zone effective January 1, 2021. If the application is approved as filed, a typical residential customer in the Veridian Rate Zone would see an increase of approximately \$0.90 per month. Other Veridian Rate Zone customers, including businesses, may also be affected.

The requested rate increase is set using an OEB-approved formula, which is tied to inflation and other factors intended to promote efficiency. The rate increase includes Elexicon Energy Inc.'s request to align the rate year in the Veridian Rate Zone to match its fiscal year and to recover forgone revenue, resulting from the deferment of the implementation of its 2020 rates because of the Covid-19 emergency.

Elexicon Energy Inc. has also applied for approval on a final basis of costs associated with the connection of renewable generation projects.
